Spark Core: Actions

After this video you will be able to..

- Explain the steps of a Spark pipeline ending with a collect action

- List four common action operations in Spark
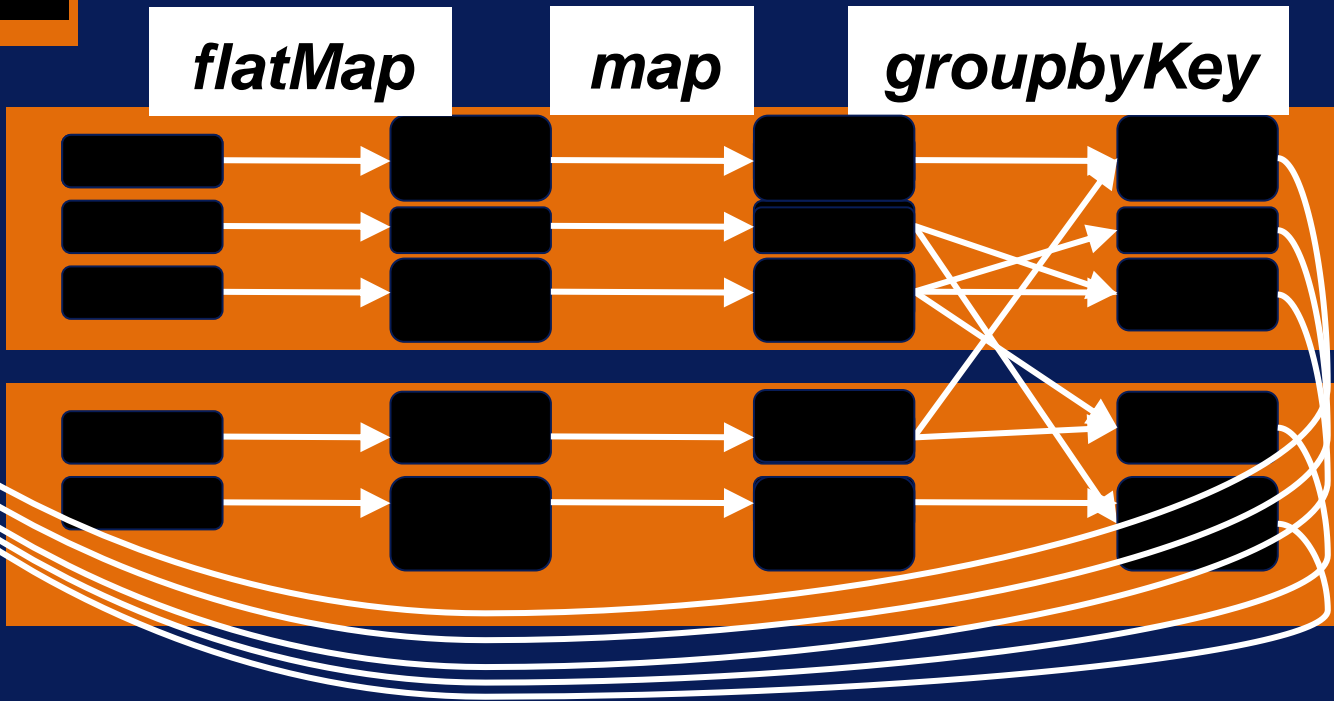

Driver Program

Spark Context

Spark Context

collect

flatMap

map

groupbyKey

Some Common Actions

Action	Usage
collect()	Copy all elements to the driver
take(n)	Copy first n elements
reduce(func)	Aggregate elements with func (takes 2 elements, returns 1)
███████████████	Save to local file or HDFS
